

# COMBO-CARTS

Revolutionary Products for the Millennium

## Combo Cart I

## Quantity Discounts Available!

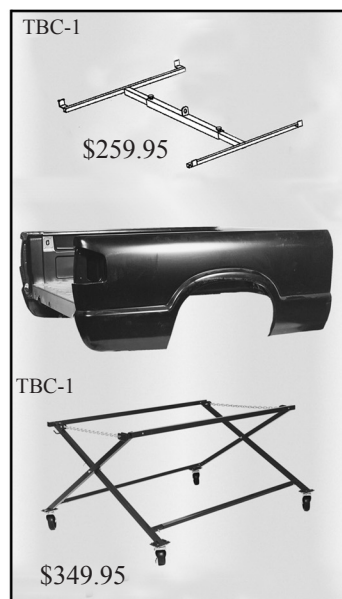

Latest trend to paint parts off the vehicle! Holds two fenders, hood, bumper cover, door and miscellaneous parts all at one time positioned as they are on the vehicle. Slip together design allows you to use only the attachments that are necessary. Parts are painted inside and out at one time. Paint the underside of the hood and immediately drop it down to paint the top side. Eliminates separate edge painting as well as paint lines. Saves time and materials!

## Parts Carts

Both carts have a red powder coated steel frame with galvanized shelves. The Basket style collapses when not being used. Shelf style has three adjustable and one fixed lower shelf. Shelf style has no front supports to hinder large part storage. Each cart has six hooks for hanging large parts to the rear. Both carts safely store and organize body parts until they can be re-assembled on the vehicle. Both carts can be used to store new parts by allowing the parts delivery person to immediately place them in the carts designated for a specific job, thus reducing unnecessary handling.

## Truck Bed Lifter & Truck Bed Cart

The Bed Lifter works with an engine hoist on beds with an inside lip. Vinyl coated ends & center prevent bed damage. Makes it a one man job to remove & install the bed!

The Bed Cart is sturdy enough to hold the bed with the bodyman inside.

*Revolutionary Products for the Millennium*

2947 Old Rochester Road  
Springfield, IL 62703

Attention: Body Shop Managers

## Bumper Cart

Foam padded adjustable arms hold bumper cover or complete bumper assembly in original position to prevent distortion when baking.

## Door/Fender Attach

Holds a fender or door in original auto position. Allows panels to be finished inside and out at one time.

(Note: Bumper Cart base is not included with attachments)

## Spoiler Attach

Holds spoilers, mirrors, hinges, fuel door, etc. for refinishing. Tilts forward and backward for easy overall finishing.
